KENTMASTER EQUIPMENT LEARNING AND TRAINING

specialises in the delivery of training programs for the meat industry that offer custom-designed training skill sets to meet the needs of each of their clients' organisational structure.

Our training programs align to on the job skill sets and can also give participants the basics to gain valuable, nationally recognized qualifications with additional accredited training with an RTO.

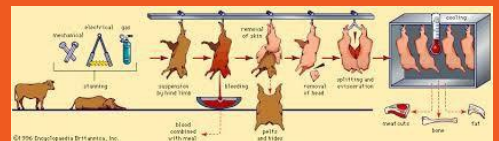

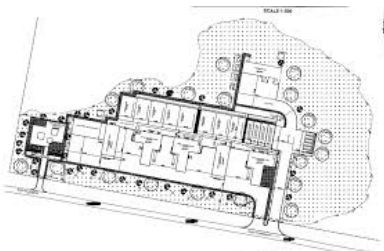

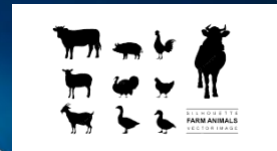

OUR OBJECTIVE in conjunction with Tongda offers tailored solutions for complex businesses such as abattoirs which have many processes within the supply chain.

From the care of livestock in the pens, transportation, animal welfare, traceability, pre-slaughter stunning, halal dispatching thru to carcass processing and boning including all the varied operations of the business, Kentmaster makes it simple, easy and transparent.
